Lean & Green Michigan™ PACE Program

Executive Summary

Public Act No. 270 of 2010 (“Act 270”) authorizes local units of government to adopt Property Assessed Clean Energy (“PACE”) programs to promote the installation of energy efficiency improvements and renewable energy systems by owners of commercial or industrial property within a district designated by the local unit of government. Act 270 allows private commercial lenders to finance energy projects; authorizes local units of government to issue bonds, notes and other indebtedness; and authorizes the assessment of properties for the cost of the energy projects. Act 270 provides for repayment to the local unit of government through a voluntary property assessment. The property assessment remains with the property and has the same priority as other property tax and assessment liens in the event of foreclosure.

Lean & Green Michigan™ (“LAGM”) has developed a collaborative approach to initiating PACE programs for local units of government by standardizing the administrative and legal process under which PACE programs are created and administered. Several local units of government throughout the state have or are in the process of joining LAGM utilizing a “shared services” approach to eliminate upfront and ongoing program costs. Further, this approach allows property owners to utilize a standardized process for PACE financing as they pursue PACE support in multiple jurisdictions throughout the state.

This documentation package includes the report required by Section 9 of Act 270 and provides model forms of documents for the PACE program. As many of the details of a PACE transaction are determined on a project specific basis, adjustments to the model documents may be required to fit a particular transaction. Additionally, there are several blanks left in the documents that should be filled in when the corresponding information is known.

COUNTY OF GRAND TRAVERSE, MICHIGAN

PACE PROGRAM REPORT

This Lean & Green Michigan™ PACE Program Report contains the information required by Section 9 of Act 270. Additional information is available from the County of Grand Traverse (“Grand Traverse County”). The PACE Program and Report were approved by the Grand Traverse County Board of Commissioners on April 30, 2014, subsequent to a public hearing held on April 30, 2014.

INTRODUCTION

In order to encourage economic development, improve property valuation, increase employment, reduce energy costs, reduce greenhouse gas emissions and contribute to the public health and welfare in Grand Traverse County, the Board of Commissioners established the Grand Traverse County Property Assessed Clean Energy Program pursuant to Public Act No. 270 of 2010 (“Act 270”) by joining Lean & Green Michigan™ (“LAGM,” the “PACE Program” or “Program”). The PACE Program has identified specific sources of commercial funding to finance the implementation of energy efficiency improvements, renewable energy systems and energy projects within the Grand Traverse County PACE district (which is coterminous with Grand Traverse County jurisdictional boundaries). The Grand Traverse County adopted a Resolution of Intent to Establish a PACE District on April 9, 2014. The Grand Traverse County Board of Commissioners held a public hearing and approved a resolution for establishment of a property assessed clean energy program on April 30, 2014.

The purpose of this PACE Report (hereinafter the “Report”) is to fulfill the requirements of Act 270. Section 9 of Act 270 requires a Report that includes: a form of contract between Grand Traverse County and the record owner; identification of an official authorized to enter into program contracts on behalf of Grand Traverse County; a maximum aggregate amount for financing under the program; an application process and eligibility requirements; a method for determining interest rates, repayment periods and the maximum amount of assessment; explanation of how assessments will be made and collected; a plan for raising capital; information regarding reserve funds and fees of the program; a requirement that the term of the assessment not exceed the useful life of the energy project; a requirement of an appropriate ratio of the amount of assessment to the assessed value of the property; requirement of consent from the mortgage holder; provisions for marketing and participant education; provisions for adequate debt service reserve fund; quality assurance and antifraud measures; and a requirement for baseline energy audits, ongoing savings measurements and performance guarantees for projects over \$250,000 in assessments.

1. Form of PACE Contract

A form of model PACE Special Assessment Agreement is attached as **Appendix A**. Individual property owners may negotiate project specific terms to be included in the model Agreement based upon the specific energy efficiency and renewable energy improvements that are subject of the individual agreement, subject to the limitations set forth herein.

2. Authorized Official/PACE Administrator/Legal Counsel

The County Executive, or his designee, and the County Treasurer, or his designee (the “Authorized Official(s)”) are authorized to enter into PACE Program contracts on behalf of Grand Traverse County in consultation with Levin Energy Partners, LLC (“LEP”), such agreements shall conform to the parameters set forth herein. The Authorized Official is further authorized to sign any agreement, documents or certificates necessary to facilitate the participation of property owners and to facilitate the purposes hereunder.

As part of Lean & Green Michigan™, LEP will act as PACE administrator to administer of Grand Traverses County’s PACE Program. LEP is authorized to negotiate with credit providers and PACE project participants to facilitate the use of the PACE Program. LEP and the Authorized Official are authorized to assist PACE project applicants in obtaining owner-arranged financing.

Miller, Canfield, Paddock & Stone, P.L.C. (“PACE Counsel”) will act as legal counsel to coordinate with the Authorized Official and LEP in the review of each PACE project being considered for approval by Grand Traverse County to assure compliance with Act 270 and the PACE Program. If Grand Traverse County is represented by PACE Counsel in matters unrelated to the PACE project being considered, the Authorized Official is authorized to waive and consent to PACE Counsel’s continued representation of Grand Traverse County.

3. Financing Parameters

The dollar amount for financing of a particular project will be established by the property owner seeking to make the property improvement and the commercial lender seeking to finance the energy improvements. The maximum aggregate annual dollar amount for all financing to be provided by Grand Traverse County shall be established not less often than annually and may be adjusted and amended by the Board of Commissioners.

Owner-arranged and other financing from commercial lenders, as allowed under Act 270, Section 9(1)(g)(iii), are separate sources of financing from the financing provided by Grand Traverse County. Owner-arranged and other financing from commercial lenders is not included under the maximum aggregate annual dollar amount for all financing provided by Grand Traverse County under the Program.

4. Application Process/Eligibility Requirements

Application Process:

The application process for financing projects under the Program shall be those of LAGM. The current application form is attached as **Appendix B**. This form may be changed or amended as necessary by LEP.

Eligibility Requirements:

The eligibility requirements for financing projects under the Program shall be those of LAGM. Eligibility requirements may be changed or amended as necessary by LEP. The current list of eligibility requirements is attached as **Appendix C**.

5. Financing Terms of Assessments

For funds supplied by Grand Traverse County, the interest rate on a PACE special assessment shall be sufficient to pay principal and interest on the financing as determined by the Authorized Official. Additional financing terms shall be negotiated between the property owner and entity providing the financing.

For funds supplied by commercial lenders, the interest rate for PACE special assessment installments will be negotiated by the parties based on current market conditions.

The maximum allowable repayment period of a PACE special assessment must be included in the PACE Special Assessment Agreement and will be determined on a project specific basis and shall not exceed the lesser of the useful life of the energy project paid for by the assessment or 25 years.

The maximum dollar amount of a PACE special assessment shall be negotiated on a project specific basis between the property owner and the entity providing the financing based upon the specific energy efficiency improvement(s) and/or renewable energy system(s) included in the individual PACE Special Assessment Agreement.

6. Assessment Collection Process

Based upon the request of the Authorized Official, within the parameters set forth herein, he will determine to:

- i. Finance energy projects by the issuance of bonds and to defray all or part of the cost of the energy improvements by special assessment upon the Special Assessment Parcel, which the Authorized Official will find is especially benefited in proportion to the costs of the energy improvements, but only with the approval of the County Commission and each Authorized Official; or
- ii. Will determine to authorize commercial lenders to provide financing to defray all or part of the cost of the energy improvements by special assessment upon the Special

Assessment Parcel, which the Authorized Official will find is especially benefited in proportion to the costs of the energy improvements.

The Special Assessment Roll, attached as **Appendix E**, will be spread by the Authorized Official on behalf of Grand Traverse County and without objection by the property owner to allocate one hundred percent (100%) of the PACE special assessment levy created hereby to the Special Assessment Parcel.

The PACE special assessment, as allocated by the Authorized Official on behalf of Grand Traverse County without objection by the property owner, will be finally established against the property and the energy projects to be constructed on the Special Assessment Parcel. The PACE special assessment will be effective immediately upon the execution and delivery of the PACE Special Assessment Agreement by the property owner. The PACE special assessment may be paid in semi-annual installments pursuant to Section 13(2) of Act 270. The Authorized Official, on behalf of Grand Traverse County will confirm the Special Assessment Roll.

If the project is financed with bonds, the Special Assessment Roll shall bear interest at a rate sufficient to pay principal and interest on the bonds. If funds are supplied by commercial lenders, the interest rate for PACE special assessments will be negotiated by the parties based on current market conditions.

7. Financing Program

LAGM is developing and will continue to develop an active roster of financial institutions, institutional investors and other sources of private capital available to finance PACE projects in Michigan. By participating in LAGM, Grand Traverses County helps its constituent property owners gain access to private capital made available through the statewide program. Grand Traverse County authorizes the use of owner-arranged financing from commercial lenders to finance qualified energy projects under the Program.

Grand Traverse County may also raise capital to finance qualified energy projects from the sale of bonds or notes, or may finance qualified energy projects under the Program from funds available to it from any other source.

8. Reserve Fund

In the event Grand Traverse County decides to issue bonds to provide financing for a PACE Program, Grand Traverse County can determine at that time to fund a bond reserve account from any legally available funds, including funds from the proceeds of bonds.

By participating in LAGM, Grand Traverse County assists its constituent property owners in taking advantage of any and all appropriate loan loss reserve and gap financing programs of the Michigan Economic Development Corporation (“MEDC”). Such financing mechanism can similarly be used to finance a reserve fund.

9. Fee Schedule

Application, administration and program fees for record owners shall be those of LAGM. Administration and program fees will be determined on a project specific basis and will depend on the size, nature and complexity of the energy project(s) and financing mechanism(s) involved.

10. Useful Life

The maximum length of time allowable for repayment of a PACE assessment shall not exceed the lesser of the useful life of the energy project paid for by the assessment or 25 years and will be determined on a project specific basis by LEP. Projects involving multiple energy efficiency improvements and/or renewable energy systems may aggregate the useful life of each improvement to determine an overall useful life figure for financing purposes. In aggregating the improvements, the property owner must appropriately weigh each improvement's dollar cost.

11. Property Eligibility Parameters

As set forth in the PACE Special Assessment Agreement, energy projects shall generally not exceed 25% of the State Equalized Value, in the year prior to completion of the application; and the lien to value ratio of the property cannot exceed 70% of two times the State Equalized Value in the year prior to completion of the application (does not include energy assessment amount). The Authorized Official may permit projects that exceed 25% of State Equalized Value for good cause on a case-by-case basis in consultation with LEP.

12. Mortgage Consent Requirement

As set forth in the PACE Special Assessment Agreement, if a property is subject to a mortgage then the record owner must obtain written consent from the mortgagee to participate in the Program. Proof of lender consent must be submitted with the PACE Program Application. A form of model lender consent to participate in a PACE Program is attached as **Appendix G**.

13. Marketing Program

LAGM has developed an ongoing marketing and participant education program. By joining LAGM, Grand Traverse County gains access to this program and agrees to partner with LAGM in educating businesses in Grand Traverse County about opportunities to save energy, save money and improve their property value and the County authorizes the use of Grand Traverse County's logo by LAGM to be incorporated into the LAGM website and other communication vehicles. More information regarding the Program can be obtained at LAGM's website: www.leanandgreenmi.com; or at Grand Traverse County's website at <http://www.grandtraverse.org/planning>.

14. Quality Assurance and Antifraud Measures

LAGM includes the following quality assurance and antifraud measures:

- i. Business integrity review;

- ii. Background check process; and
- iii. Other general due diligence as may be necessary or required.

15. Audit Requirement

As set forth in the PACE Program Application, a baseline energy audit conducted by a third-party approved by the Authorized Official and LEP must be completed before an energy project is undertaken. Each contract will require and provide adequate funding for monitoring and verification of energy savings throughout the life of the special assessment, to be conducted by independent third-parties and/or dedicated software, as determined appropriate by the Authorized Official and LEP for each project. LEP shall conduct an independent technical and financial review of the audit at the property owners expense, as part of the application process for projects under the PACE Program.

16. Projects Over \$250,000

As set forth in the PACE Special Assessment Agreement, energy projects financed with more than \$250,000 require ongoing measurements to establish energy savings and a guarantee from the contractor that the energy project will achieve a savings to investment ratio greater than one (1). Provisions to provide for ongoing measurements and to provide performance guarantees shall be included with the PACE Program Application, attached as **Appendix B**.

17. Amendments to the Program

A public hearing shall not be required to amend this Program except for paragraph 11. Paragraph 11 may be amended only after holding a public hearing on such amendments.

Lean & Green Michigan™ PACE Program Application

Public Act 270 of 2010 (“Act 270”) authorizes local units of government to adopt Property Assessed Clean Energy (“PACE”) programs to promote the installation of energy efficiency improvements and renewable energy systems by owners of commercial or industrial property within a district designated by Grand Traverse County. Act 270 allows private commercial lenders to finance energy projects and authorizes local units of government to issue bonds, notes and other indebtedness. Act 270 authorizes the assessment of properties for the cost of the energy projects and provides for repayment to local governments through a voluntary property assessment. The property assessment remains with the property and has the same priority as other property tax and assessment liens in the event of foreclosure.

LAGM has developed a PACE program that provides voluntary special assessments for certain energy efficiency improvements and renewable energy systems that are associated with real property.

The property eligibility requirements are as follows:

Property is privately owned commercial or industrial real property within Grand Traverse County’s jurisdictional boundaries, which may be owned by any individual or private entity, whether for-profit or non-profit. MCL 460.933(g). Multi-family residential property is included in the definition of commercial property.

There are no delinquent taxes, special assessments, or water or sewer charges on the property. The Authorized Official at his or her discretion may disqualify properties that although not currently delinquent, have been delinquent within six months of the application’s submission. MCL 460.941(2)(a).

There are no delinquent assessments on the property under a PACE Program. MCL 460.941(2)(b).

The term of assessment shall not exceed the lesser of the useful life of the energy project paid for by the assessment or 25 years. Projects that consist of multiple energy efficiency improvements or renewable energy systems with varying lengths of useful life may blend the lengths to determine an overall assessment term that does not exceed the useful life of the improvements in aggregate. MCL 460.939(i).

An appropriate ratio must be determined for the amount of assessment in relation to the assessed value of the property. The ratio will be determined on a project-by-project basis by LEP and shall not exceed 25% of the State Equalized Value without written approval of the Authorized Official. MCL 460.939(j).

Written consent from the mortgage holder must be obtained if the property is subject to a mortgage. MCL 460.939(k).

A baseline energy audit must be conducted for the property that is approved by LEP and the Authorized Official. Such approval may be granted retroactively if the audit meets the standards of LEP. MCL 460.939(o).

PACE Program Application
APPENDIX B

For projects financed for more than \$250,000, a performance guarantee must be provided by the contractor(s) to guarantee a savings to investment ratio greater than one (1). MCL 460.939(p). The performance guarantee must meet the standards set by LEP.

For projects financed for more than \$250,000, an agreement to conduct annual energy and financial audits must be established with committed financial and logistical arrangements for ongoing verification and measurement of energy savings that meet standards set by LEP. MCL 460.939(p).

Bonds or notes issued under Act 270 shall not be general obligations of the local unit of government, but shall be secured by the voluntary assessments and other security mechanisms provided in the statute. MCL 460.945(2).

The applicant assumes all risk with respect to the implementation of a PACE Program in respect of the applicant's property. Grand Traverse County is an accommodation party only, and is providing access to the PACE Program so as to enable property owners to make decisions regarding energy improvements to their property in a manner which allows the property owner to make the improvements in a cost-effective manner and for the property owner's benefit.

Energy projects that may be eligible for PACE assessments include, but are not limited to: equipment, devices, or materials intended to decrease energy consumption, including: insulation in walls, roofs, floors, foundations, or heating and cooling distribution systems; storm windows and doors; multi-glazed windows and doors; heat-absorbing or heat-reflective glazed and coated window and door systems; and additional glazing, reductions in glass area, and other window and door system modifications that reduce energy consumption; automated energy control systems; heating, ventilating, or air-conditioning and distribution system modifications or replacements; caulking, weather-stripping, and air sealing; replacement or modification of lighting fixtures to reduce the energy use of the lighting system; energy recovery systems; day lighting systems; installation or upgrade of electrical wiring or outlets to charge a motor vehicle that is fully or partially powered by electricity; measures to reduce the usage of water or increase the efficiency of water usage; any other installation or modification of equipment, devices, or materials approved as a utility cost-savings measure by the Board of Commissioners; and a fixture, product, device, or interacting group of fixtures, products, or devices on the customer's side of the meter that use one (1) or more renewable energy resources to generate electricity, but does not include an incinerator or digester.
